

HELPING ORGANIZATIONS FUNCTION AT FULL CAPACITY

ViDL Solutions is a certified women-owned consulting, training and coaching firm that partners with organizations to help them function at full capacity. Our services are focused on three essential elements of organizational wellbeing: developing high capacity, courageous leaders; improving team dynamics; and supporting employee wellbeing and performance.

Consulting

We partner with your organization to understand its unique dynamics, identify root causes of organizational pain points and formulate a strategy for a thriving culture where people can work to their potential and the organization can fulfill its mission. Organizational leaders who work with a ViDL consultant shorten their learning curve and are better able to ensure their organization receives the greatest value from investment in its people and culture.

Training

We offer a wide array of customized trainings that enhance individual wellbeing, improve team performance, develop leaders and transform culture. From micro-sessions to keynotes to multi-day intensives, delivered in person or virtually, our energetic and powerful trainings are highly interactive and self-reflective. Our trainings are thoughtfully designed to keep participants engaged, challenged and inspired.

Coaching

One-to-one coaching provides a safe and productive environment for employees to improve personal wellbeing and develop their professional skills. Coaching can be provided as a stand alone solution or as part of a strategic plan that supports sustainability. All ViDL coaches are highly-trained and experienced in working with executives and employees at all levels.
